## Education

Sep 2023 - Present	<b>BSAI</b> <b>NTU, Faisalabad</b>  <b>Backend &amp; Django Developer with AI Integration Skills</b> As an intermediate-level backend developer, I specialize in Django and Python to build reliable, scalable web applications. I'm also exploring the intersection of backend systems and AI, with hands-on experience integrating machine learning models and data-driven features. I focus on writing clean code, designing efficient APIs, and continuously improving my skills in both web development and artificial intelligence. <ul style="list-style-type: none"><li>➤ <b>Candy Crush-inspired game</b> – Made in C++ using a function-based approach (1<sup>st</sup> semester project).</li><li>➤ <b>Resume Analyzer</b> – A Python and Machine Learning project to analyze CVs (3rdsemester project).</li><li>➤ <b>Online Study App</b> – Built using Django backend, similar to an online rooms system.</li><li>➤ <b>Space Invader Game</b> – Developed using Pygame for practicing 2d game developement</li><li>➤ <b>Simple eCommerce Site</b> – Created for Django practice.</li></ul>
